# ourbakery

You work hard to craft a special experience for your customers, and need suppliers that support you. We realise that your customers are our customers, and take pride in delivering consistent, quality products, on time, every time.

We launched our family business in 2003, just as our first son was born and are proud of building our sweet bakery based on consistency, quality and integrity. Every cake matters.

We bake cakes, tarts, puddings, muffins and traybakes using superior ingredients, from scratch, by hand. We focus on classic recipes, done well, such as our deliciously moist carrot and orange cake or hand-rolled pecan pie. For life's little indulgences our rich chocolate fudge cake made with 70% cocoa solid chocolate really hits the spot.

We supply the catering and retail trade in and around London and the South East with low minimum orders, and frozen pallets nationally.

# cakes

Our delicious classic cakes are delivered in a contemporary way, using superior quality ingredients and finished by hand. We take the time to ice the sides as well so that you can offer cakes that stay fresher for longer.
